

# DreamMaker™ XE VE2200

\*Street pricing may vary

**For those who dream of creating embroidery with ease**

## Overview

Wish you had a mid-priced, high-powered embroidery-only machine? Then the new DreamMaker™ XE, with its industry-first features will help make your dreams come true. That's right – for those with a passion to embroider, the ultimate dream machine is here. The expansive 7" x 12" embroidery area is one of the largest workspaces available for home embroidery by Brother™. The Droplight™ Embroidery Positioning Marker uses an LED pointer to show the needle drop position with pinpoint accuracy, which is critical for embroidery. With the V-Sonic™ Pen Pal use the sensor pen to automatically place your embroidery pattern by touching the desired center and upper portions on the fabric. For perfect corners and borders, touch two points on the edge line of the pattern's embroidery square field to easily align it. Getting your design just right is easy with pattern rotation by 1 degree – use the LCD touch screen display to change the rotation angle of your design in one degree increments for precise placement. Change the background color of embroidery designs on the LCD touch screen display for editing ease and greater visibility during the preview process. Never worry about messy or unprofessional thread trims with automatic thread cutting. With so many industry-first features and included accessories get ready to enjoy perfection with the DreamMaker™ XE!

## Features

### Basic Features

<b>LCD Size (Horizontal x Vertical) inches</b>	3.6 x 6.0
